

The background features a series of overlapping, angular shapes in red, black, and grey, creating a sense of depth and movement. The shapes are layered, with some appearing to be in front of others, and they generally trend upwards and to the right. The overall aesthetic is modern and minimalist.

Mount it on bikes, cars, boats, helmets, skateboards etc to capture crystal clear videos while in motion. The waterproof housing enables it to be used with water activities or to capture videos under water.

Comes with a 2.0" LCD to view videos/pictures. It can also be used for home security as well as a car dash camera.

POCKET SIZED

Available as Add-on or Separately

Super steady videos and pictures for smartphones and HD Video Cameras/GoPro Smoovie is a video stabiliser that fits in your pocket, is easy to use for all abilities and the most affordable option for recording smooth videos on the go!

Traditional video stabilisers are much bigger and heavier, with tricky and time consuming set up. Instead of relying on weight and friction Smoovie cleverly uses magnetic force, allowing anyone to record smooth videos without all that bulk.

Just pull out the telescopic counterweight balance to the marker for your smartphone or GoPro and Smoovie calibrates itself!

Moleskine brand is synonymous with culture, travel, memory, imagination, and personal identity--in both the real world and the digital world.

It is a brand that encompasses a family of nomadic objects: notebooks, diaries, journals, bags, writing instruments and reading accessories, dedicated to our mobile identity. Objects that follow us everywhere we go and identify us wherever we are in the world. Moleskine objects are partners for the creative and imaginative professions of our time. They represent, around the world, a symbol of contemporary nomadism.

We use Rayosan® from Archroma (formerly Clariant, Switzerland), inherited from leading European companies dating back to 1886!

Archroma's range of dyeing auxiliaries provides highest process safety and optimized right-first-time performance.

Rayosan® deflects UVA and UVB rays like a mirror. It strengthens the fabric's ability to block harmful UV rays from reaching the skin without altering the colour, resilience or breathability of the fabric. This innovative fabric assures maximum broad-spectrum UV- protection, either wet or dry.

* Skin Cancer Foundation, USA encourages the use of innovative fabrics that have been specially treated with UV absorbers to protect your skin.

SCHWARZWALD UV POLO

Stay cool, stay dry, stay protected.

Whether you are trekking in the forests, journeying through the desert or out in the sun for activities, you need an attire that befits the adventure!

Our UV protected polos with moisture management have Cotton inside and Polyester outside that give added comfort and stretch needed in a polo.

Made from the finest raw materials- Super-combed Cotton and Micro-Polyester, our fabrics are tried and tested in every weather conditions.

Created by our team of technical experts who have mastered the art of making apparel that know how to perform – whether in a forest or in a desert or on the road.

Schwarzwald UV is leagues ahead of the existing apparel available in the market and takes SUN PROTECTION apparel to the next level!

- Performance Polos made from superior combination of Cotton and Micro Polyester
- Subtle contrast tipped collar/cuff/placket/Side slits for a Corporate look
- Double textured fabric has outer layer in Micro-Polyester that gives the luster and crispy look of an elegant polo and inner layer has the softness and comfort of cotton
- Moisture Management Property pulls the moisture (sweat) out of the skin and transports it to the outer layer. With evaporation, the temperature drops inside the micro-environment creating a significantly cooler feel on the inside while the outer layer remains as fresh as when first worn
- UV treatment blocks UVA and UVB rays protecting the skin from the harshness of the Sun.
